Dear Mr. Olson:

On July 13, 1984, I wrote you to request the source of and references for certain data presented at the January 9-12, 1984 geochemistry workshop. This background information is needed to complete our review of the geochemical data. Our normal practice in reviewing site data is to consider the source of the data as well as the references that cite the data.

To date, the requested information has not been received, and I have not had a response to my July 13 inquiry as to when the information will be made available.

We will appreciate a response on this matter.

Sincerely,

"ORIGINAL SIGNED BY"
