ADVANCE ISSUE OF DRAFT ENVIRONMENTAL ASSESSMENT REFERENCES Microfiche are in
Enclosed for your use is an advance initial issue of approximately 62
references to the Basalt Waste Isolation Project Draft Environmental
Assessment (EA). This transmittal includes the entire list of references
based on the August 3, 1984, draft of the EA along with the microfiche slides
for approximately 62 references. The references whose slides have been
included in this package are indicated on the index by a number "1" in the
left-hand margin. As references are compiled, a revised index will be
transmitted along with the additional slides.

The next transmittal index will indicate both the slides sent in the first
transmittal ("1" in the left-hand margin) and the slides sent in the second
transmittal ("2" in the left-hand margin). We will continue this process
until the issue of the Draft EA which is scheduled for December 20, 1984.

Prior to or parallel with the release of the draft EA, we will provide you
with a complete set of microfiche references based on that draft, along with a
revised index and User's Guide for the control, revision, and maintenance of
these files.

We would caution that while the references contained in this transmittal are
similar to those in reference to the final draft, the contents should not be
construed to necessarily represent a final or inclusive set.

PDR

- 2 -

We trust that this package of references along with those to follow, will serve to enhance your preparation for review of the public comment draft EA when it becomes available.

Very truly yours,

R.P. Saget for.

O. L. Olson, Project Manager
Basalt Waste Isolation Project Office
