Dear Dr. Taylor:

Enclosed for your review and comment are three copies of Open File Report OF-WIWI-1987-2, entitled "Hydrogeology and Hydrochemistry of Cretaceous Aquifers, Texas Panhandle and Eastern New Mexico," by R. Nativ and G. Gutierrez.

This report contains supportive data for the interpretation of the hydraulic connection between the Ogallala aquifer and the underlying Cretaceous aquifers. All interpretations and conclusions are already included in the contract report, entitled "Hydrogeology and Hydrochemistry of the Ogallala Aquifer, Southern High Plains", (OF-WIWI-1985-34), by R. Nativ, which was approved by the Department of Energy on July 2, 1987.

Please call on me or the authors if we can provide any additional information or assistance regarding this report.

Sincerely,

Marcus E. Milling
