Jim Kennedy  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Kennedy:

SUBJECT: REQUESTED QUALITY ASSURANCE DOCUMENTS FROM DOE-SRPO

The list below is a compendium of documents requested by NRC at your visit to the Salt Repository Project Office, December 18-19, 1984. The documents are being forwarded to you this date under separate cover, as they are too bulky to be enclosed as attachments to this letter.

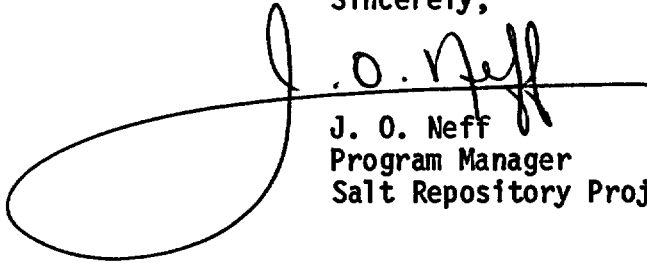

1. Agenda and Presentations of DOE/NRC Quality Assurance Meeting, December 18-19, 1984.
2. Presentation of N.E. Carter to NRC at Quality Assurance Meeting, December 18-19, 1984
3. November, 1984 Parsons-Redpath QA Audit Report
4. List of Peer Reviews conducted by Argonne National Laboratory (ANL).
5. Two examples of Peer Reviews of ANL
  - a. Multifactor Life Testing of Waste Package Materials
  - b. Schematic Designs for Penetration Seals for a Repository in the Permian Basin, Texas
6. PNL Report 2955, Reference Site Initial Assessment for a Salt Dome Repository, June, 1982
