

February 25, 2004

Kevin Crowley
Director
Board on Radioactive Waste Management
National Research Council
500 Fifth Street, NW
Room 636
Washington, DC 20001

Dear Dr. Crowley:

This letter confirms that the data-gathering session of the meeting of the National Research Council Committee on Safety and Security of Commercial Nuclear Spent Fuel Storage scheduled for March 5, 2004, from 8:30 am to 5:30 pm, will expose Nation Research Council Committee members, staff, and agents of the institution to national security classified information within the meaning of 5 U.S.C. § 552(b)(1). This session will be held at the Argonne National Laboratories, 9700 South Cass Avenue, Argonne, IL 60439. Furthermore, because of the anticipated informal and interactive nature of the foregoing session, it is not feasible to predict in advance all those portions of the session during which classified information will be disclosed. Although we understand the National Research Council's desire to conduct the meetings of this committee in as open a manner as possible, the above-referenced data-gathering session of the committee must be held as not open to the public to protect classified information.

Sincerely,

/RA/

Farouk Eltawila, Director
Division of Systems Analysis and Regulatory Effectiveness
Office of Nuclear Regulatory Research
