SUBJECT: ENVIRONMENTAL ASSESSMENT AND FINDING OF NO SIGNIFICANT
IMPACT RELATED TO THE LICENSE RENEWAL OF THE SURRY
INDEPENDENT SPENT FUEL STORAGE INSTALLATION (TAC NO. L23455)

Dear Mr. Christian:

By letter dated April 29, 2002, as supplemented, you submitted an application to the U.S. Nuclear Regulatory Commission (NRC) requesting a site-specific license renewal in accordance with 10 CFR Part 72 for an independent spent fuel storage installation (ISFSI) at the Surry Power Plant. As part of the application, you submitted an Environmental Report, as required by 10 CFR 72.34. The NRC staff has completed its environmental review for this action. The staff concludes that there are no significant radiological or non-radiological impacts associated with the proposed action, and that issuance of a renewal of the license for the interim storage of spent nuclear fuel at the Surry ISFSI will have no significant impact on the quality of the human environment. A Notice of Issuance of Environmental Assessment and Finding of No Significant Impact (FONSI), and the NRC staff's Environmental Assessment related to the continued operation of the Surry ISFSI are enclosed for your information. The Notice has been forwarded to the Office of the Federal Register for publication.

Our decision on your license application will be addressed in future correspondence, which will include the staff's safety evaluation report. If you have any questions regarding this action, please contact me at (301) 415-3781.

Sincerely,
/RA/

Mary Jane Ross-Lee, Project Manager
Spent Fuel Project Office
Office of Nuclear Material Safety
and Safeguards

Docket No. 72-2 (50-280, -281)
TAC No. L23455

Enclosures: 1. Notice of Issuance and Finding of No Significant Impact
2. Environmental Assessment
