(Return to WM, 623-SS)

Dear Joe:

When we were discussing uranium ores, during the field trip to the Palo Duro Basin, mention was made of the "basal type" of sandstone deposits.

Some of these deposits, in Japan, Canada and the U. S., are briefly described in the enclosed reprint from Memoir 38 of the New Mexico Bureau of Mines and Mineral Resources.

It was indeed a pleasure to be with you in the field and catch some of your understanding of the fluvial sedimentary environment.

Sincerely,

ORIGINAL SIGNED BY

Robert J. Wright
