SUMMARY

Robert Holden, lawyer for the National Congress of American Indians called on Friday, 2/1/85. He said he had been in the meeting with Mr. Bunting and Ms. Russell when the NezPerz were here. He was interested in receiving more information on how a tribal member could be detailed to work at the NRC. I told him that since it had not been done before procedures would have to be put in place at the time the situation presented itself but that it was a possibility under Part 60. He was preparing a newsletter for a meeting with the tribes and wanted the name of a contact in case someone wanted to ask more questions about doing this. I gave him my name and Cathy Russell's. He said it would be up to the tribes, that he was just a "facilitator." He mentioned that he represented the tribes on the Nuclear Waste National Review Committee for those affected on the first and second repository. He also mentioned that the tribes were working on a "Transportation Paper".
