DT/84/07/30/0

NOTE TO: Robert Johnson, WMRP

FROM: David Tiktinsky, WMEG

As was discussed in a meeting with John Greeves on July 24, 1984, we recommend that the word Backfill be changed to Engineered Barrier System in performance issues three and eight from Appendix C of the BWIP SCA. We would also like to point out that in the figure showing repository system elements, vertical shafts and boreholes should be deleted from Engineered Barrier System.
