Licensee/Applicant Participant(s): Eastern Technologies, Inc. Mark Fellows, Vice President	Organization:	Telephone No.: 334-899-4351	
Person(s) Calling: Donna Janda			
Subject: License application request			
<p>Summary:</p> <p>I spoke with Mr. Fellows about Eastern Technologies license application. The Decommissioning Funding Plan and Radiation Protection Manual were marked "Confidential - Proprietary Information". I explained that NRC could not process the application unless Eastern Technologies provides either a letter stating that these documents are not proprietary or an affidavit stating which information is proprietary and the reasons they consider the information to be proprietary, in accordance with 10 CFR 2.790. I also explained that they need to provide redacted copies of these documents which do not contain the proprietary information. I explained that NRC would review the information and make a determination on the request. I also explained that once the application is processed, we would be publishing a Federal Register Notice regarding the application request. Mr. Fellows stated that he would provide the information by close of business tomorrow.</p>
