George Brown, District Geologist	(Spokane, WA) Bureau of Land Mgmt.	FTS 439-2570	WM 101.1
SUBJECT	Receipt of Plot Plan From BLM Indicating the Exploratory Shaft at the RRL Lies within an Area Possibly Open to Mineral Leasing		See Attached Distribution List

SUMMARY

- Mr. Brown's Oct. 2, 1986 letter to H. Lefevre consisted of several attachments, including a plot of areas proposed by DUE to be opened for mineral leasing. Two of the plots are within the RRL - the section within which the Exploratory shaft is located and an adjacent section to the NW of the Exploratory shaft area. If the DUE request is granted, the effect would be that BLM, not DUE, would have the authority to grant ^(or deny) permission for exploration activities and perhaps even resource development within the RRL.
- Mr. Brown feels, considering that there is a potential conflict with the suggested mineral development and existing/proposed surface and subsurface facilities, his report, which may be completed late this fiscal year, must address this problem.
- Mr. Brown also indicated that a separate, on-going action by BLM will probably result in additional areas immediately adjacent to the west of the RRL being made available to other-than-government development.

ACTION REQUIRED
Advising WM personnel of above activity.
