SUBJECT: SUMMARY OF CLOSED MEETING WITH GE NUCLEAR ENERGY
(GENE)

On February 4, 2004, the NRC staff conducted a closed meeting with GENE to discuss the future submittal of their mixed core topical reports (TRs) as they apply to extended power uprates (EPU). A list of attendees is attached. The non-proprietary presentation slides are available in ADAMS under accession numbers ML040430099 and ML040430102.

During the meeting, GENE presented the NRC with its draft report shells which address analyses for a mixed fuel core. GENE also proposed a time line for formal submission of these TRs in the future. At this time, a formal review is not yet requested of the NRC, but draft copies of the documents were made available for the NRC staff.
