(Return to WM, 623-33)

These are the questions to be addressed, in each of the six topical areas, during our review of the DOE analysis.

1. Are the tables complete in the listing of DSCA comments? Pay particular attention to Table 2, which is intended to itemize the comments in the DSCA text.
2. Are the comments correctly stated in the "Statement of Item" column? We must be certain that no change of meaning takes place through restatement of the DSCA wording.
3. What are the top priority issues in terms of licensing importance? These need to be identified to ensure that the emphasis in future activities is properly placed.
4. Based on answers to the above questions, is the DOE analysis a suitable document for further discussion and tracking of BWIP issues?
5. Finally, in each topic area what are the objectives of the meeting to be held the week of June 13 - e.g., clarification of issues, review of BWIP comments, documentation of disposition, planning of follow-up, etc.

We will meet again at 10:00 a.m., Thursday the 2nd, in the 5th floor

conference room. These are the two main topics:

1. A succinct summary, by each G.C., of answers to the above questions.
2. A discussion of an agenda for the June 13 week meeting, starting with the DOE suggestions on page iv.
