MEMORANDUM TO: BWIP Review Team
FROM: Robert J. Wright, Senior Technical Advisor
High-Level Waste Technical
Development Branch
Division of Waste Management
SUBJECT: PRELIMINARY REVIEW ASSIGNMENTS FOR SCR CHAPTERS

Based on a fragmentary (and perhaps not wholly correct) understanding of the organization of the SCR for BWIP, the following lead responsibilities are proposed. While some chapters appear to deal with a single topic, others (eg. chapter 2) will probably embrace more than one. In such cases, the group with lead responsibility will need to coordinate with other topic groups to make sure that proper coverage is given to all parts of the chapter.

Chapters 13, 14, 15, 16 and 17 will require special handling. Since they cover issues, as well as site characterization plans, schedules and programs, they will require attention by all reviewers.

<u>Chapter Number</u>	<u>Subject</u>	<u>Responsibility</u>
1	Introduction	Project Manager (Wright)
2	Decision process for choosing an RRL	Institutional (Boyle)
3	Geologic description	Geologic stability (Prestholt)
4	Geoengineering	Design (Greeves)
5	Hydrogeology	Groundwater (Verma)
6	Geochemistry	Retardation (Justus)

00003

7	Surface hydrology	Groundwater (Verma)
8	Climatology, meteorology and air quality	Institutional (Boyle)
9	Environmental, land use, socio-economic concerns	Institutional (Boyle)
10	Design	Design (Greeves)
11	Waste package	Waste package (Cook)
12	Performance assessment	Project Manager and Topic Coordinators
13, 14, 15 16, 17	Issues, site characterization plans and program, schedules	All
18	Quality Assurance	Design (Greeves)
19	Alternative sites	Institutional (Boyle)
