NOTE:

The Environmental Monitoring Committee will hold a meeting in the EFSEC Conference Room beginning at 1:00 p.m. on Thursday, July 18. The major discussion item will be the USDOE-sponsored 1984 Environmental Monitoring Report. This report covers both on and off reservation monitoring.

USDOE will discuss monitoring results, the technical processes used to develop results, and the procedures used to reach the reported conclusions. I expect it will take about 4 hours to cover the material. The meeting will be open to all those interested in Hanford monitoring.
