87-LES-180

Those on Attached List

Ladies and Gentlemen:

Enclosed for your information are copies of the following final BWIP Environmental Reviews (BERs):

BER-87-005	Drillhole DC-32
BER-87-006	Drillhole DC-33

These BERs were not transmitted to you on September 11, 1987, with BERs 001-004, 007 and 008, partly because they had not undergone a final DOE-BWI Division review. We apologize for the delay in transmitting these documents to you.

The results of the enclosed BERs were similar to those for DC-24 and 25 in that (a) the archaeological survey revealed no trace of cultural resources and, (b) it was recommended that the solid waste in the drilling reserve pit be tested for the presence of listed hazardous wastes under applicable Federal and State regulations.

Any questions concerning these BER documents should be referred to Mr. J. E. Mecca or Mr. S. C. Whitfield of my staff on 376-5038 and 376-2048, respectively.

Sincerely,

John H. Anttonen, Assistant Manager
for Commercial Nuclear Waste
