MEMORANDUM FOR: Robert Jackson, Chief
Earth Sciences Branch

FROM: Robert J. Wright
High-Level Waste Technical
  Development Branch

SUBJECT: PARTICIPATION BY JEFF KIMBAL IN THE REVIEW OF
THE BWIP SCR

This letter confirms the conversation between yourself and Dr. Philip
Justus concerning Jeff Kimball's limited participation in the review of
the BWIP SCR scheduled to begin November 15, 1982.

It is anticipated that Jeff Kimball will review relevant parts of Chapter
3, "Geologic Description of the Reference Repository Location" and
Chapters 13 and 14 (site and design issues and plans). He should pay
particular attention to sections of the report that: 1) refer to the
WNP-2 SER and SSER and 2) may impact the three topic reports on seismic
issues at BWIP that Mr. Kimball has written. In addition, he will review
the NRC issue analysis on seismic hazard at BWIP.

It is suggested that the deliverables, due November 29, consist of notes,
in the margin of the SCR text, and the NRC issue analysis of his
specific comments, and mark-ups of his three topic reports if any
revision is necessary.

The geologic stability team has scheduled a meeting at 10:00 A.M. on
Monday, November 15 in room 440 to discuss details of the SCR reivew.
It would be appreciated if Jeff Kimbal could attend this meeting.
