Dear Dr. Buschbach:

The NRC staff has completed the "Draft Site Characterization Analysis for the Basalt Waste Isolation Project." I have made arrangements for a copy to be sent directly to you during the distribution next week. Much of the information presented in the analysis is related to other ongoing activities (e.g., ANS standards activities; Salt and Tuff siting studies). I hope you find this information useful in your activities related to waste disposal studies.

Please call me if you have specific questions or comments.

Sincerely,

**"ORIGINAL SIGNED BY"**

John T. Greeves, Section Leader  
 Design Section  
 High-Level Waste Technical  
 Development Branch  
 Division of Waste Management
