25 February 2004

Mr. David B. Mathews, Director  
Division of Regulatory Improvement Programs  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555-0001

CAL No. NRR-04-003

Docket No.: 50-228

Dear Mr. Mathews:

Aerotest Operations has implemented all planned compensatory measures contained in the "Implementation Plan" dated 22 August 2003 except for Item II.B.1. We have started the [REDACTED]

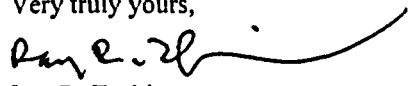

To further augment the security of the Aerotest Radiography and Research Reactor and to enhance the protection of public health and safety from radiologic exposure, all action items contained in our letter to the NRC dated [REDACTED]

The Homeland Security Unit of the Contra Costa County, Office of the Sheriff has completed a terrorism assessment of the Aerotest Operations Facility using the Urban Carver Target Evaluation method. In addition to international terrorist organizations, the LLEA evaluated the threat posed by special interest extremist groups, local militia, opportunistic criminals and the disgruntled employee.

The evaluation provided recommendations similar to the NRC's, which were already implemented. The one additional action recommended was to [REDACTED]

Aerotest Operations would like to thank the members of the NRC who helped us in upgrading our security system which will result in enhancing the safety and health of the public from radiologic exposure.

Very truly yours,

  
Ray R. Tsukimura  
President

cc: Marvin Mendonca
