Subject: Re: Guidance on Release of Information to the Public

Mindy you have done a good job summarizing the last criteria I had. I would eliminate "fairly major" and I would include at the beginning, "in addition to previously restricted categories of info such as proprietary, personal,and information classified as safeguards info...."you should not release a document if it

Dave Matthews is providing our position regarding the plant status info for Pat. The same applies to your announcement. Should we have the draft announcement run through our stakeholders downtown and by the Commission for policy?
