 Subject: Review of NUREGs for Web Publication

NUREG-series publications (NUREGs) previously published in the Reference Library on the "Previous Public Web Site" will not be reposted until they have been evaluated against criteria for the discretionary release of information to the public. I have been asked to coordinate this evaluation and need your help in its completion. During this evaluation, consider whether each publication is still being used or is outdated and, therefore, need not be reposted.

Attachment 1 contains the list of previously posted NUREGs, the names of cognizant offices, and staff contacts (which, in certain instances, may be outdated). The NUREGs listed in Attachment 1 may be obtained electronically from the "Previous Public Web Site" at <http://www.nrc.gov:201/NRC/NUREGS/indexnum.html>.

Attachment 2 provides draft criteria for releasing information. These criteria are at the Commission for approval.

In order to expedite this evaluation when the criteria are approved, which is expected to be shortly, please accomplish the following:

- 1) Identify staff in your office to review the NUREGs in Attachment 1 for which your office is identified as cognizant (Please notify me immediately if you believe any NUREG assigned to your office should be reassigned to another office.).
- 2) Have staff familiarize themselves with the draft criteria in Attachment 2 and the content of the publications your office will review in Attachment 1 to expedite the evaluation process when the final criteria become available. It may be useful to perform a preliminary evaluation using the draft criteria to complete the "Acceptability for Web Publication" columns in Attachment 1.
- 3) Please complete the three "Acceptability for Web Publication" columns on Attachment 1 after your evaluation for reposting is complete. On the basis of the draft criteria, check Yes if the publication can be reposted and No if it should not be reposted. If you check No, check why it is not being reposted, that is, either because it is Sensitive or because it is Not Needed.

I will transmit the final criteria to you when they are released.

Thanks. Gil

CC: Francine Goldberg; Juanita Beeson; Mindy Landau; Roy Zimmerman
