In the time available, the only constructive suggestion I can offer is there should be a conclusory statement, like ... *The staff intends to continue these efforts until a more effective and stable process can be formally established.* *PERMANENT*

Attached is a DRAFT of the Commsecy which will forward our latest criteria and the status of the staff review/redaction efforts. As this is a quick turnaround, please provide me your comments by 2:00 today... our goal is to get it upstairs by COB. Thanks!
