 Subject: Re: Fwd: ASP Analysis to be sent to licensees

Bill,

Can you please provide me with an example of the words to put in the cover letter to the licensee that describes the sensitive nature of the enclosure (ASP analysis).

Also, what words should be displayed on each page of the attachment. It seem that the Agency has not been consistent lately---Most popular heading of the week is "SENSITIVE - NOT FOR PUBLIC DISCLOSURE"

What will work for Projects?

Thanks.

Don

(Let's have lunch sometime.)
