

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

February 22, 2002

release

MEMORANDUM TO: Those on the Attached List

FROM: Stuart Reiter *CIO*
Chief Information Officer

SUBJECT: REPOSTING DOCUMENT COLLECTIONS TO NRC'S PUBLIC
WEB SITE

As you know, many documents formerly posted at our public Web site were removed in the aftermath of the terrorist attacks of September 11, 2001. The Commission recently provided guidance on document sensitivity criteria and a group of staff is working to develop specific criteria based on that guidance.

In the interim, we would like to begin reposting documents that clearly do not fall within the scope of sensitive material based on the proposed guidance (reference Bill Travers' memorandum on review of documents for public release, dated January 31, 2002). To that end, I'm requesting that you review the list of document collections (Attachment 1) previously available at our public site and use the form (Attachment 2) to authorize the Web staff to repost those that clearly fall outside the scope of the guidance. Examples are NRC Forms and ACRS/ACNW Schedules and Agendas, etc.

The attached form provides several choices for the scope of the restoration ranging from "Day Forward only" to one or more years of historical documents. Please keep in mind that there is a cost associated with reposting the collections when selecting the scope for restoration. Older documents in some collections may have limited value to the public.

Please do not use the form to authorize the release of individual documents within a collection. If a collection requires a document-by-document review, please provide the name of the individual in your office who can authorize the reposting of specific documents. Although we are not asking offices to review most collections that require a document-by-document review before the criteria are finalized, we are asking NRR, NMSS, and RES to authorize release of any Regulatory Guides and Generic Communications that are clearly outside the scope of the Commission guidance. The Public Document Room Staff and Web Staff have identified these two categories of documents as the ones most requested for restoration to the Web.

Those on the Attached List

- 2 -

Please return the attached form and list of Regulatory Guides and Generic Communications that can be reposted to Joan Hoffman by March 15, 2002. Should you have any questions, please address them to Walter Oliu at 415-5638.

Once we have these inputs we will provide offices with a schedule for reposting these documents. Decisions on Regulatory Guides will be coordinated with the Office of Nuclear Regulatory Research.

Attachments: As stated

cc: Those on the attached list (Deputy Office Directors, Web Steering Committee Members, and Web Liaisons)

Collections of Documents by Type		Status of Reposting at nrc.gov	Lead Office
Advisory Committee on the Medical Uses of Isotopes (ACMUI)	ACMUI Schedules and Agendas	Review	NMSS
	ACMUI Meeting Transcripts	Review	NMSS
