SUBJECT: REQUEST FOR DRAFT LETTER REPORT ON ADDITIONAL
HYDROCHEMISTRY WELLS

As detailed in Attachment B of your Monthly Report to Robert Browning for the period November 30, 1985 to January 10, 1986, BWIP has completed a "Draft Letter Report on Additional Hydrochemistry Wells." This letter report should provide BWIP's rationale for locating and designing additional monitoring facilities that will be constructed specifically to characterize the hydrochemistry of the BWIP site. Please obtain from BWIP a copy of this report and send it to me for WMGT staff review as a follow-up to the December 1985 DOE-NRC BWIP hydrology meeting and in preparation for the upcoming Geochemistry meeting. If you have any questions about my request, please call me at telephone number (301) 427-4746.
