The U.S. Nuclear Regulatory Commission has been carefully reviewing its web site for material we consider to be sensitive from a security standpoint or otherwise inappropriate in light of the terrorist attacks of September 11, 2001. We have identified material on your web site, located at <http://www.endingterrorism.com/scenario-nuclear-plant-truck-bomb.htm>, which we believe should not be posted. We would appreciate your cooperation in deleting this material as soon as possible, and in sending us confirmation of your actions in this regard. Thank you for your assistance.
