SUBJECT APPROVAL OF APPENDIX 7 TRIP REPORT; CEPT & PLM Documents; W. Kiel Letter; Conversation with Art Lassila of DOE; SLAR of BUWP

SUMMARY Appendix 7 Trip Report - Bob Cook approves the draft of the Sept. Appendix 7 trip report; gave approval to issue the same.

CEPT & PLM Documents - H. Lefevre indicated to R. Cook that URC was preparing a letter to W. Kiel of WPPSS forwarding portions of the PLM (mineral leasing) and CEPT (hauling) documents. R. Cook has been placed in cc.

Art Lassila (DOE) conversation - H. Lefevre informed R. Cook of the numerous items to be discussed at some future time with RMA/DOE. (See Art Lassila - H. Lefevre telegram of Oct. 23, 1986 for specifics.)

SLAR - R. Cook indicated that Bill Brewer of the State of Washington was successful in obtaining SLAR info, via the USGS, for the Hanford site.

Exploratory Shaft - Bob Cook indicated that Jim Mecca is looking into: (a) conventional mining of the exploratory shaft because of (a) a need for a larger diameter shaft opening and perhaps (b) a lower stressed area.

ACTION REQUIRED

Issuance of Appendix 7 report is now approved. Take steps to return the report. Inform engineering (WMEB) of suggested revision of shaft tunneling approach.

NAME OF PERSON DOCUMENTING CONVERSATION	SIGNATURE	DATE
HAROLD E. LEFEVRE	Harold E. Lefevre	04 NOV 1986

ACTION TAKEN

Appendix 7 report nearly finalized. Engineering and BUWP team advised on Oct. 29, 1986 of suggested change in excavation techniques for the exploratory shaft.
