RESEARCH DIVISION  
QUEHANNA, PENNSYLVANIA  
AMHERST 3-4711

  
August 18, 1959

Mr. James R. Mason  
Chief Isotopes Branch  
Division of Licencing and Regulation  
U.S. Atomic Energy Commission  
Washington 25, D.C.

Dear Mr. Mason,

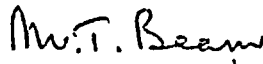

I am enclosing herewith as requested, two copies of CWR MC-8, which supercedes CWR-462, Health Physics Manual for the Curtiss-Wright Research Division.

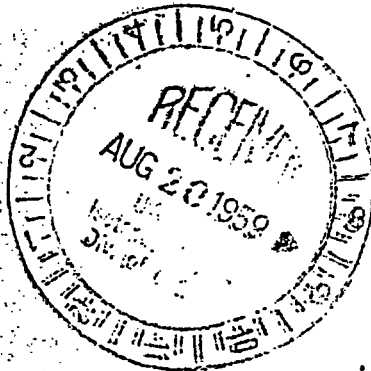

You will note that some of the proposed changes in 10 CFR- Standards for Protection Against Radiation have already been included, and some have not. This came about because portions of the manual had been committed to paper prior to receipt of the proposed changes and there was a certain urgency in getting the manual published. Amendments will be issued at a later date to conform with the new proposed changes.

I would be most pleased to receive any comments which you and your staff might have regarding improvement of this manual.

Yours very truly,

CURTISS-WRIGHT CORPORATION  
RESEARCH DIVISION
