Dear Mr. Newton:

As you requested in conversation with H. Miller, I have enclosed, for your information, a list of key products from NRC's high-level waste program. The nature and function of various types of NRC guidance products is briefly described, and selected NRC products that have been issued, or are being planned, are identified in this document. This document was distributed in connection with our presentation on the NRC high-level waste licensing program at the Civilian Radioactive Waste Management Information Meeting which was held on December 12-15, 1983.

Sincerely,

"ORIGINAL SIGNED BY"
