

CENTER FOR NUCLEAR WASTE REGULATORY ANALYSES

MEMORANDUM

April 12, 1990

TO: John Latz  

FROM: John P. Hageman and Ted Romine

SUBJECT: Consultant Services Contract for John T. O'Brien

RATIONALE FOR CONTRACT:

I will utilize John T. O'Brien for Systematic Regulatory Analysis (SRA), a portion of Program Architecture, data development, an area that he has worked on over the last two years and development of background material for the EIS review strategy and License Application review strategy. John has demonstrated his abilities to analyze the Regulatory Requirements and develop the needed information for the Elements of Proof, Compliance Determination Methods, etc. in a logical and systematic approach and in developing programmatic strategy. John has been assisting in the development of the new Systematic Regulatory Analysis procedures, and this knowledge will be extremely useful in future activities. Also, John's background in geophysics and nuclear physics adds to this abilities to assist in the areas of work that the Center will be undertaking in FY-90 and FY-91.

PROJECT NUMBER: 20-3702-051 and/or 20-3702-031

ADDITIONAL FOR FY-90 DAY/HOUR REQUIRED: 650 HOURS
(490 Hours to 20-3702-051 and 160 Hours to 20-3702-031)

Enclosed herewith is a current resume of the proposed consultant's capabilities for review and consideration. In addition, a Form E-11 is attached for your signature and conveyance, along with this memorandum, to the Personnel Department.

Approved - John E. Latz
