

While the Staff's action occurred on January 13, Petitioners did not receive notice of the Staff's action until 6:00 p.m. on Friday, January 16, when the Staff sent Board Notification 2004-02 via e-mail.² Because the e-mail arrived after Petitioners' counsel had left the office for the weekend, she did not learn of the Staff's action until Monday, January 19.

Petitioners are filing this application within ten days of the posting of Board Notification 2004-02 on the e-mail service list, and within seven days of actually learning of the license amendment. Thus, this application is timely in relation to the date when notice was received. Petitioners' counsel was not able to file the stay motion by the due date, January 23, due to major obligations in other cases.³ Therefore Petitioners request that the Presiding Officer exercise his discretion, as permitted by 10 C.F.R. § 2.711, to allow the filing of this stay application one business day late.

Petitioners' counsel has consulted counsel for NFS, who stated that NFS intends to oppose this motion. Petitioners' counsel also attempted to contact counsel for the NRC Staff, but was unable to reach her.

² E-mail from Valentina Cheny (January 16, 2004), enclosing Board Notification 2004-02, Memorandum to Administrative Judge Alan S. Rosenthal from Gary s. Janosko re: New Information Potentially Relevant and Material to Licensing Board Proceeding in the Matter of Nuclear Fuel Services, Inc., Erwin, Tennessee (January 15, 2004).

³ These obligations included an oral argument on January 11, 2004, in an NRC proceeding regarding Duke Energy Corporation's application to test plutonium fuel at the Catawba nuclear power plant, Docket No. 50-143 and 50-144; and preparation of a reply brief due January 23 in an NRC proceeding regarding the U.S. Department of Energy's application for an export license to ship plutonium to France, Docket No. 110-540.

Respectfully submitted,

Diane Curran
