Your ref: Docket No. 52-006
Our ref: DCP/NRC1685

March 10, 2004

SUBJECT: Comments to US NRC in Regard to Westinghouse Document WCAP-15833

Westinghouse previously submitted WCAP-15833, "WCOBRA/TRAC AP1000 ADS-4 /IRWST Phase Modeling," in support of the AP1000 Design Certification review. The original intent of this report was to support validation of the NOTRUMP code for AP1000 small-break LOCA analysis. Subsequent to submitting this report, and in response to NRC requests, alternative means of validating NOTRUMP, primarily comparison to test data, have been applied. As such, Westinghouse is not relying on WCAP-15833 to support the AP1000 Design Certification review, as this report is no longer referenced in the AP1000 Design Control Document (DCD).

Please contact me at 412-374-4728 if you have any questions concerning this submittal.

Very truly yours,

A handwritten signature in black ink, appearing to read 'R. P. Vijuk'.

R. P. Vijuk, Manager
Passive Plant Engineering
AP600 & AP1000 Projects
