

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

NOV 16 1987

TO: ALL INTERESTED PARTIES

The attached document entitled "Selected NRC Products -- High-Level Waste Program" dated November 1987 is being distributed for your information.

Sincerely,

/s/

Eileen T. Tana, Licensing Assistant
Operations Branch
Division of High-Level Waste Management

Selected NRC Products
High-Level Waste Program

November 1987

SELECTED NRC PRODUCTS
HIGH-LEVEL WASTE PROGRAM

INTRODUCTION

The purpose of this list is to identify selected NRC High-Level Waste Program products and provide a summary of current and planned documents issued by the NRC staff. The list is not intended to be directive in nature but rather to offer a collection of products generated by the HLW program in order to provide timely guidance/advice for prelicensing and eventual licensing phases. It is necessary to use a variety of documents to provide such guidance because of: a) variability in the nature of the technical issues in HLW; b) the site specific nature of many of the issues; c) the evolving nature of issues with time as the exploratory site investigations are carried out; and d) variability in what is an appropriate level of detail that must be addressed in guidance.

The Nuclear Waste Policy Act of 1982 (NWSA) has established by law schedules for certain accomplishments in the HLW program. For many reasons, DOE will meet the milestones while, in some cases, they may be unable to meet the schedule. Due to the uncertainties in investigative results and changes of priorities and schedules, guidance flexibility is also needed. The variety of existing documents and procedural forms allows the staff to take a flexible approach in assuring efficient, timely and complete guidance in the prelicensing and licensing phases. This summary permits interested parties who have limited time and who cannot, practically speaking, follow the great amount of detail that is the subject of the prelicensing guidance process to be informed of how the process is working. This summary offers a listing of generic as well as site-specific products which have been or are being planned. The document will be reviewed and reissued on a periodic basis.

The summary is divided into three major components: Regulations, Licensing Guidance Process; and NRC Review Plans. Copies of the referenced documents can be obtained from the USNRC Public Document Room.

I. REGULATIONS

While there are a number of NRC and other Federal agencies rules and regulations which pertain to the prelicensing and licensing actions, this list includes only those products produced by the HLW Program.

10 CFR Part 60--Disposal of High-Level Radioactive Wastes in Geologic Repositories.

	<u>TITLE</u>	<u>ISSUE DATE</u>
o	Licensing Procedures for HLW in Geologic Repositories	February 1981
	- NEPA/EIS Adoption (Proposed)	TBD
	- Site Characterization and State/Tribal Participation (Final)	July 1986
o	Technical Criteria for HLW in Geologic Repositories	June 1983
	- Unsaturated Zone	July 1985
	- Definition of High-Level Waste (ANPR)	February 1987
	- EPA Standard (Proposed)	June 1986

II. LICENSING GUIDANCE PROCESS

This section is divided into eight areas: Site Characterization Analysis (SCA) and Semi-annual update reviews; Regulatory Guides; Staff Technical Positions; Documented Technical Meetings; Environmental Assessment Reviews; Contractor Reports (Research and Special Studies); State/Tribal Interactions; and Program Planning and Management Reviews.

A. SITE CHARACTERIZATION ANALYSIS AND SEMI-ANNUAL REPORTS

The Department of Energy (DOE) announced in August 1987 that consultation draft Site Characterization Plans (CDSCPs) will be issued for all three sites simultaneously in early January 1988. Subsequently, DOE plans to conduct consultations with the NRC, States and Indian tribes to discuss comments on the CDSCPs. After consideration of the comments received and workshop discussions, DOE will prepare and issue the statutory SCPs required by the Nuclear Waste Policy Act (NWPA) and 10 CFR Part 60. NRC's Site Characterization Analyses (SCAs) will be completed six months after SCP release. Follow up will be provided by semi-annual reports issued by the DOE. The NRC reports would be in response to the DOE's semi-annual reports which are also required under the NWPA (Section 113).

B. REGULATORY GUIDES

Regulatory Guides are drafted by the staff to establish a standard approach to licensing. They are not directives, but reflect acceptable procedures or actions which would be considered acceptable by the staff.

The current plans are to issue standard content and format documents as Regulatory Guides.

<u>TITLE</u>	<u>DESCRIPTION</u>	<u>ISSUE DATE</u>
1. Regulatory Guide 4.17	Standard Format and Content of Site Characterization Plans for High-Level Waste Geologic Repositories	March 1987
2. Regulatory Guide ____	Safety Analysis Report Format Guide	TBD

C. STAFF TECHNICAL POSITIONS

Staff Technical Positions have been divided into two types: Generic Technical Positions, dealing with issues which relate to licensing activities for repositories independent of the technology or site selected; and Site Technical Positions, which give site specific guidance/advice.

1. SITE TECHNICAL POSITIONS (STPs)

STPs provide a format for establishing the staff's positions on site specific issues. The set of STPs for a given site provides a means of tracking and tracing positions taken by the staff. Issue-oriented Site Technical Positions (ISTPs) are generated in each technical review area (hydrogeology, etc.) for each site. ISTPs constitute what the staff considers to be a systematic and comprehensive identification of issues which need to be resolved for licensing. Other detailed STPs are issued as appropriate throughout the pre-licensing period. They establish acceptable methods of analysis, minimum information needs, or acceptable methods of data gathering and form the basis for tracking issues over time.

The concept of STPs was developed to provide maximum flexibility in completing a series of technical positions that have sufficient formality to record staff positions and to notify the prospective licensee (DOE). STPs (other than ISTPs) will be initiated by the need for documentation of a staff concern or in response to a major question raised by the licensee.

a) Issue-oriented Site Technical Positions (ISTPs)

The ISTPs were coordinated with DOE/NRC workshops in individual program areas.

2. GENERIC TECHNICAL POSITIONS (GTPs)

The specific issues that must be addressed in a potential licensing case will be site specific. Therefore, the principal mechanism for documenting guidance is through the site specific guidance described in the SCA section II.A. above, and in section II.D. (Technical Meetings). Notwithstanding this, some issues can be grouped in generic non-site specific categories. From the experience gained in the consultation process at various sites, the staff is identifying areas where it would be useful to document guidance in this generic fashion. For the most part, this would involve repetition of staff positions already developed and documented. The following lists generic technical positions already developed or under development. Also listed are technical areas where the staff is tentatively considering developing GTPs.

- o Documentation of Computer Codes, NUREG/CR-0856 June 1983
48FR31761, 7/11/83
- o Determination of Radionuclide Solubility in November 1984
Groundwater for Assessment of High-Level Radionuclide
Waste Isolation (Final)
- o Waste Package Reliability Analysis (Final) December 1985
- o In-Situ Testing During Site Characterization (Final) December 1985
- o Design Information Needs in Site Characterization December 1985
Plans (Final)
- o Borehole and Shaft Seals (Final) February 1986
- o Determination of Radionuclide Sorption for HLW January 1987
Repositories (Final)
- o Modeling Strategy Document for HLW Performance July 1984
Assessment
- o Licensing Assessment Methodology for HLW Geologic July 1984
Repositories (Draft)
- o Interpretation and Identification of the Disturbed July 1986
Zone (Draft)
- o Groundwater Travel Time (Draft) July 1986
- o Seismo-Tectonic Evaluation Methodology (Draft) TBD
- o Guidance for Determination of Anticipated Processes and TBD
Events and Unanticipated Processes and Events (Draft)

<u>TITLE</u>	<u>ISSUE DATE</u>
o Items and Activities in the HLW Geologic Repository Program Subject To 10 CFR Part 60 Quality Assurance Requirements (Draft)	July 1986
o Qualification of Existing Data (Final)	June 1987
o Peer Review (Final)	June 1987

D. DOCUMENTED TECHNICAL MEETINGS

The purpose of the technical meetings is to assure that an information flow is maintained between the NRC and DOE which facilitates the accomplishment by each agency of its responsibilities relative to site investigation and site characterization. Technical meetings are held to review data, review and consult on interpretation of data, identify potential licensing issues, agree on the adequacy of methods and approaches for acquisition of information and data as well as available data. Schedules of activities pertaining to these technical meetings will be made publicly available to all interested parties. A written report agreed to by both NRC and DOE will be prepared for each meeting including agreements reached. The meetings are open to State/Tribal representatives and allow public attendance as observers.

BWIP WORKSHOPS AND TECHNICAL MEETINGS

<u>MEETING</u>	<u>DATE</u>
Hydrazine Data Review	July 21-22, 1987
Hydrology Workshop	April 7-9, 1987
Hydrology Data Review	December 2-5, 1986
Project Management Meeting	August 4, 1986
Hydrology Meeting	December 9-10, 1985
Exploratory Shaft Design Workshop	December 3-4, 1985
Design of Seismic Survey	May 23, 1985
Hydrology Workshop	May 22, 1985
Management Meeting	April 10, 1985
Hydrologic Characterization	December 12-13, 1984
QA Visit	December 10-11, 1984
Geology Data Review	October 22-26, 1984

BWIP WORKSHOPS AND TECHNICAL MEETINGS (Continued)

<u>MEETING</u>	<u>DATE</u>
Geology Data Review	July 30-31, 1984
Hydrologic Characterization Plans	June 12-13, 1984
Barrier Material Test Plan	May 8-9, 1984
Geology Workshop	March 13-15, 1984
Rock Mechanics Data Review	January 23-26, 1984
Hydrologic Data Review	January 9-16, 1984
Geochemistry Workshop	January 9-12, 1984
Exploratory Shaft and Underground Testing	November 29-December 2, 1983
Performance Assessment	August 29-September 1, 1983
Technical Management Meeting	August 4-5, 1983
Hydrology Testing	July 11-15, 1983
Site Issue Meeting	June 13-16, 1983
Hydrology Meeting	June 7-10, 1983
Management Meeting	May 27, 1983
Geology and Geologic Stability	April 11-15, 1983
Repository Design	October 5-6, 1982
Hydrologic Modeling of Pasco Basin	September 27-28, 1982
Waste Package/Geochemistry	August 9-12, 1982
Hydrology	July 21-27, 1982
Underground Testing Plans for the SCR	June 9-10, 1982
Hydrology	January 12-13, 1982
Site Technical and Program Review	September 22-26, 1981
Site Technical and Program Review	July 7-17, 1980

NNWSI WORKSHOPS AND TECHNICAL MEETINGS

Seismotectonics Technical Meeting	September 22-23, 1987
Exploratory Shaft Meeting	April 14-15, 1987
Management Meeting	June 12, 1986
Management Meeting	February 19-20, 1986
Exploratory Shaft Design/Construction	August 27-28, 1985
Waste Package	July 23-25, 1985
Management Meeting	March 11, 1985
Sample Acquisition for Topopah Spring Member and Calico Hills Tuff	February 4, 1985
QA Visit	December 13-14, 1984
Geology Data Review	September 17-28, 1984
Hydrology Data Review	July 25-28, 1984
Design/Rock Mechanics Data Review	July 17-20, 1984
Geochemistry	July 10-13, 1984
Waste Package	October 18-19, 1983
Geology	October 4-6, 1983
Hydrology	September 20-21, 1983
Hydrology Data Review	January 27-28, 1983
Conceptual Design	January 24-25, 1983
Hydrology	January 18-19, 1983
Geochemistry	January 12-13, 1983
Site Technical and Program Review	May 17-19, 1982
Peer Review of NNWSI	August 24-28, 1981
Site Technical and Program Review	February 16-24, 1981
Site Technical and Program Review	September 24-25, 1979
Geochemistry and Hydrogeology	March 2, 1979

NNWSI WORKSHOPS AND TECHNICAL MEETINGS (Continued)

<u>MEETING</u>	<u>DATE</u>
Site Technical and Program Review	February 23-24, 1978
Seismic/Geologic Design Criteria for Waste Repository	January 25, 1978

SALT WORKSHOPS AND TECHNICAL MEETINGS

Salt (TBEG) Core Review	October 20-22, 1987
Exploratory Shaft Facility Design Meeting	May 5-7, 1987
Management Meeting	June 9-10, 1986
Waste Package	January 22-24, 1986
Structure and Tectonics of the Palo Duro Basin	November 19-21, 1985
Permian Basin Core Examination (Data Review)	August 5-8, 1985
Management Meeting	June 18, 1985
QA Visit	December 18-19, 1984
Geophysics Data Review (Paradox Basin)	October 16-18, 1984
Geochemistry	August 22-24, 1984
Rock Mechanics Data Review	August 21-24, 1984
Information Management Systems Meeting	August 8, 1984
Site Security and Safeguards	May 23, 1984
Hydrology Data Review	May 14-18, 1984
Repository Design, Exploratory Shaft, and In-Situ Testing	October 25-26, 1983
Waste Package Design and Performance	August 9-10, 1983
NRC Guidance on SCP Content	June 27-28, 1983
DOE Salt Project Overview	April 19-20, 1983
Review of the DOE Site Screening in Salt, Paradox Basin (meetings and site visits)	May 11-21, 1981
Survey of Salt Dome Investigations (meetings and site visits)	September 8-19, 1980

GENERIC WORKSHOPS AND TECHNICAL MEETINGS

<u>MEETING</u>	<u>DATE</u>
Issues Hierarchy and Issue Resolution Strategy	October 8-9, 1987
Generic Design Basis Accident Dose Limit	August 26, 1987
Q-List GTP	August 25, 1987
NRC Staff Comments on OGR QA Plan	August 19, 1987
QA Technical Meeting on Peer Review and Qualification of Existing Data GTPs	May 14, 1987
Issues Hierarchy and Issue Resolution Strategy	March 3-4, 1987
DWPF Vitrification Process, Waste Form and Supporting Data Base Technical Meeting	December 9-10, 1986
Waste Acceptance Process Meeting	July 31, 1986
Level of Detail in the SCP	May 7-8, 1986
Pilot Project Demo/Status of NWPB Program	April 29, 1986
EA Site Ranking Methodology Briefing	April 23, 1986
Licensing Support System Coordinating Group	April 22, 1986
Rod Consolidation	December 17, 1985
Generic QA Meeting	December 4-5, 1985
Generic Seismo-Tectonics Meeting	December 3-4, 1985
Site Characterization Plans--Chapter 8	October 29-30, 1985
Subsystem Performance Allocation	September 26-27, 1985
DOE Position Paper on Retrievability and Retrieval	July 31, 1985
Exploratory Shaft Facility Design/Construction, Licensing Issues, and the Exploratory Shaft Test Plans	July 18, 1985
Q-list Methodology	July 1, 1985
Appendix 7 to Site Specific Agreement--On-Site Representatives Activities	June 14, 1985
Management Meeting with DOE	May 30, 1985

GENERIC WORKSHOPS AND TECHNICAL MEETINGS (Continued)

<u>MEETING</u>	<u>DATE</u>
Design Information Needs for SCPs	April 18, 1985
Performance Allocation Meeting	April 17, 1985
Review of Report "Recommended Safety, Reliability, QA and Management Techniques with Possible Application by DOE to the HLW Repository Program"	April 11, 1985
Discussion of NRC Comments on DOE's Draft EAs	April 8-9, 1985
DOE Annotated Outline for Site Characterization Plans	February 13, 1985
Development of Licensing Issues and Information Management Systems	February 8, 1985
QA Site Visits Summary Briefing	January 28, 1985
Briefing on NRC Licensing Process	January 28, 1985
NRC's Comments on DOE Draft Mission Plan	December 17, 1984
Preparation for QA Visits to Project Sites	November 30, 1984
Transportation Model Workshop	November 27-28, 1984
NRC Licensing Process Briefing to DOE Field Offices	November 5-8, 1984
QA Review Plan and Upcoming QA Site Visits	October 24, 1984
QA Site Visits Planning Meetings	October 18, 1984 September 17, 1984
In-Situ Testing Planning Meeting	August 9, 1984
DOE Siting Guidelines	April 18, 1984
Discussion of the OCRWM Mission Plan	April 11, 1984
NRC Review Plan of QA for Site Characterization	May 12, 1983

E. ENVIRONMENTAL ASSESSMENT (EA) REVIEWS

The staff has reviewed and commented on all DOE's draft and final Environmental Assessments (EAs). These reviews are part of the continuing interface between the staffs of the DOE and NRC which will lead to early identification of potential licensing issues. The staff comments identify

open items which are relevant to the potential licensing of each site based on information currently available and which will need to be resolved during site characterization.

NRC staff comments on the DOE Draft Environmental Assessments March 20, 1985

NRC staff comments on the DOE Final Environmental Assessments December 22, 1986

F. CONTRACTOR REPORTS

In establishing the basis for guidance, the NRC staff periodically requires assistance from contractors. Reports giving details of the results of such assistance are published as NUREG/CR documents. Some NUREG/CR reports are a reflection of results of experimental programs whereas others are technical evaluations utilizing existing expertise and data. The following lists divide these reports into seven technical review areas and also differentiate reports produced for the Office of NMSS from those produced for the Office of Research (RES).

1. Performance Assessment

<u>TITLE</u>	<u>NUMBER</u>	<u>DATE</u>
a) <u>NMSS</u>		
o Suggested Nuclear Waste Management Radiological Performance Objectives	NUREG/CR-0579	July 1979
o SWIFT Self-Teaching Curriculum	NUREG/CR-1968	March 1982
o Repository Site Definition in Basalt, Pasco Basin, WA	NUREG/CR-2352	March 1982
o DNET Self-Teaching Curriculum	NUREG/CR-2391	March 1983
o PATH 1 Self-Teaching Curriculum	NUREG/CR-2394	October 1982
o NRC Report on Dosimetry and Health Effects Self-Teaching Curriculum	NUREG/CR-2422	March 1983
o Summary of Repository Siting Models (Final Report)	NUREG/CR-2782	July 1982
o Repository Site Data Report for Tuff: Yucca Mountain, Nevada	NUREG/CR-2937	November 1983
o Parameters and Variables Appearing in Repository Siting Models	NUREG/CR-3066	December 1982
o Benchmark Problems for Repository Siting Models	NUREG/CR-3097	December 1982

a) NMSS (Continued)

G. STATE/TRIBAL INTERACTIONS

NWPA Section 117(a) states that NRC must provide the states and Indian tribes timely and complete information regarding its determinations or plans made regarding siting, development, or design for licensing, construction, operation, regulation, or decommissioning. A summary of NRC's recent efforts is discussed below.

In a continuing effort to keep the states and tribes involved, the Commission has held public meetings during the last few years, i.e., a 1/24/86 meeting on proposed amendments to 10 CFR 60, Licensing Procedures, and a 6/16/87 meeting on views of states/tribes regarding the HLW program. NRC's HLW staff also recently sponsored the 2nd annual meeting with states/tribes in Washington, DC on 6/30/87.

Staff have made numerous presentations to the states and tribes on current NRC activities in the NWPA process. Recent examples are a DOE quarterly meeting with states/tribes in Oregon, August 1986, a crystalline state/tribal meeting in December 1986, a National Congress of American Indians meeting in March 1987, a visit to the Yakima, Nez Perce, and Umatilla Indian Reservations in September 1987, and a meeting with Nevada representatives on 9/17/87.

Copies of significant HLW documents are sent routinely to state/tribal contacts, and notices of availability are sent to numerous interested parties. A weekly notice of NRC/DOE upcoming meetings, both tentative and firmly established, is sent to state/tribal representatives. In addition, these upcoming meetings are also announced on a toll free telephone recording for use by the general public.

III. NRC REVIEW PLANS

Review Plans document the procedure which will be used by the staff in reviewing major documents submitted by the DOE. They identify the questions that will be asked and the independent analysis that will be performed by the staff. The primary purpose of review plans is to standardize and organize the staff's review of licensing documents. They provide, indirectly, guidance to the licensee in terms of the kinds of data and information that is expected in documents such as SCPs. They also provide useful information to interested parties about how NRC is doing its job. Draft review plans for SCAs and Quality Assurance programs have been written. Other review plans, such as the Review Plan for an Application for a Construction Authorization, will be prepared as needed.

<u>TITLE</u>	<u>ISSUE DATE</u>
Standard Review Plan for Site Characterization Plans (Draft)	August 1983
Review Plan for Quality Assurance Programs for Site Characterization of High Level Nuclear Waste Repositories	June 1984

Review Plan for Consultation Draft Site Characterization Plans	December 1987
Revised Review Plan for Site Characterization Plans	December 1987
Technical Review Plan for Study Plans	TBD

AVAILABILITY OF INFORMATION

- HLW documentation, including NUREG/CR reports, received by HLWM and generated by HLWM and its contractors is routinely sent to NRC's Public Document Room (PDR), 1717 H Street, NW, Washington, DC, Telephone 202/634-3273. Contact the PDR for information and copies of NRC's HLW correspondence.
- Copies of NUREG/CRs can be obtained by contacting the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20013-7082. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
