Attention: Mr. Robert W. Kirkman, Director, Inspection Division

Gentlemen:

We have your letters under date of February 18, 1957 addressed to the attention of Dr. H. K. Hershenson, Mr. Philip Bliss, Mr. Manley Wu, and Mr. John Stewart concerning the inspection of our license activity under our Byproduct Material Licenses. Your letter states that your Division is responsible for the inspection of all licensees. We should like to request, however, that arrangements be made through the Hartford Area Office of the AEC inasmuch as our AEC contract and security is under its administration.

Very truly yours,
