

NOTE TO NEXT INSPECTOR

Copy of F. Brandkamp Phone Call Log

| IN/OUT   | Time    | Date    |
|--|---------|---------|
| IN   | 9:25    | 1/18/72 |
| Fred Sawyer, Tech. Supervisor, United Aircraft, Lic # 06-07522-03 - called to ask if 20.407 reports are req. in view of letter dated 2/24/68 from Molero, DML, stating his opinion that this licensee is not obligated to submit reports per 20.407. I told Sawyer that Lic-03 allows radiography, hence 20.407 reports are mandatory, and I could not explain the reason for Molero's position. Suggested he get in touch with Molero but also pointed out apparent n/c with 20.407 - 20.408 per terms of rep. lic. He said he would follow up and call me back. I will hold on my desk pending his return call or further clarification. |         |         |
| OUT  | 1:00 PM | 1/19/72 |
| Called United Aircraft, reached Wm. L. Parker, supervisor of Sawyer. Parker said Sawyer had discussed the above with him and he had decided that the easiest solution would be to file 20.407 and 20.408 report rather than attempt to show why they should not be required. He said he has directed Sawyer to prepare and submit such reports, covering the time period since 20.407 & 20.408 went into effect.   |         |         |

This situation may be worth looking at during the next inspection of this licensee.
