

JUN 15 1988

MEMORANDUM FOR: Raymond F. Fraley  
Executive Director  
Advisory Committee on Reactor Safeguards (ACRS)  
FROM: Victor Stello, Jr.  
Executive Director for Operations  
SUBJECT: RESPONSE TO ACRS REPORT ON NRC STAFF COMMENTS ON  
CONSULTATION DRAFT SITE CHARACTERIZATION PLAN (CDSCP)

Your letter of May 11, 1988 transmitted a report of the ACRS Subcommittee on Waste Management's review of NRC staff's comments on the U. S. Department of Energy's (DOE's) CDSCP for the Yucca Mountain, Nevada site. The ACRS report suggested that the NRC highlight some of the major comments in the package by grouping them into categories, based on their importance and the type of problems that they reflect. The NRC staff incorporated this suggestion into the final comments transmitted to DOE on May 11, 1988. Copies of the final comments to DOE have already been provided to the Subcommittee.

The ACRS report also identified a number of areas for NRC staff consideration during DOE's site characterization program. The staff will review with the new Advisory Committee on Nuclear Waste (ACNW) specific actions it has taken and will be taking with respect to these areas during the first meeting of the ACNW June 29, 1988.
