

CENTER FOR NUCLEAR WASTE REGULATORY ANALYSES QUALITY ASSURANCE SURVEILLANCE REPORT

PROJECT NO.: 20.06002.01.031

REPORT NO.: 2003-20

PAGE 1 OF 1

SURVEILLANCE SCOPE: Semi-annual recall of scientific notebooks.

REFERENCE DOCUMENTS: QAP-001, Scientific Notebook Control and QAP-004, Surveillance Control.

STARTING DATE: 09/11/03

ENDING DATE: 11/12/03

QA REPRESENTATIVE: Mark R. Ehnstrom

PERSONS CONDUCTING TEST/EXAM/ACTIVITY: Personnel performing activities for the CNWRA which are recorded in scientific notebooks.

SATISFACTORY FINDINGS:

This surveillance documents the semi-annual recall of scientific notebooks and includes both hard copy and electronically maintained notebooks. This surveillance is made more difficult because of the number of notebooks maintained by personnel at remote locations. The surveillance found the notebooks to be in general compliance with procedural requirements. Notebooks were returned to authors for corrections, generally to initial and date cross-out entries.

Based on this surveillance, the Scientific Notebook Log Book will be updated with the latest information. The list used during this surveillance (attached) will be used to update the log and will be used as the initial list during the next recall.

UNSATISFACTORY FINDINGS: Scientific notebooks which were not reviewed during this surveillance are identified on the list as "not reviewed" in the review status column. These notebooks will be reviewed as they are returned and a second surveillance report will be issued to document the results of that review.

NONCONFORMANCE REPORT NO.: N/A
CORRECTIVE ACTION REQUEST NO.: N/A

ATTACHMENTS: List of CNWRA Scientific Notebooks as of September 2003 showing updated information identified during the surveillance. (Pages 1-8)

RECOMMENDATIONS/ACTIONS:

As a result of the surveillance, approximately 15 notebooks will be closed for various reasons which include project completion and continuation in another notebook. These notebooks are identified in the review status column as "close". Followup activities should be performed to assure this is properly accomplished and that the notebooks become part of the Licensing Support Network.

APPROVED:
CENTER DIRECTOR OF QUALITY ASSURANCE
