**Re: Early Site Permit Application For North Anna
Federal Consistency Certification under the Coastal Zone Management Act
Virginia Agency Review of Application**

Dear Ms. Irons:

Enclosed are the requested 18 copies (CDs) of Dominion's Early Site Permit (ESP) Application at North Anna for determination of Virginia's Coastal Zone Management Act (CZMA) consistency and coordinated review by Virginia environmental agencies. As you are aware, this review is being requested to assist the Nuclear Regulatory Agency (NRC) in development of an Environmental Impact Statement to satisfy National Environmental Policy Act (NEPA) requirements.

It is Dominion's understanding that, as part of the NRC's NEPA review process, a public scoping meeting and site audit will be convened in early December 2003 to receive comment from the public and appropriate state and local agencies on information in the ESP Application. Dominion respectfully requests that the review by Virginia agencies be completed by March 1, 2004, or as soon as reasonably possible, in order that comments and/or resolutions may be included in NRC's public comment period.

If you have any comments or questions during the review process, please contact Jud White at (804) 273-2948 or Tony Banks at (804) 273-2170.

Sincerely,

Pamela F. Faggert
