

March 22, 2004

The Honorable Steve Darrow
P.O. Box 880-E
Putney, VT 05346

SUBJECT: VERMONT YANKEE NUCLEAR POWER STATION - ANNUAL ASSESSMENT OF
SAFETY PERFORMANCE

Dear Mr. Darrow:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Entergy Nuclear Operations, Inc. in which the NRC will discuss with Entergy our annual assessment of the safety performance of the Vermont Yankee Nuclear Power Station.

The meeting will be held at 7:00 p.m. on March 31, 2004, at the Vernon Elementary School, 381 Governor Hunt Road, Vernon, VT. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with Entergy our assessment of the safety performance at Vermont Yankee and their response to our assessment. The meeting is open to the public for observation. Following the business portion of the meeting, you and other members of the public will have an opportunity to communicate with the NRC regarding Entergy's safety performance at Vermont Yankee and the role of the NRC in ensuring safe plant operations. NRC staff will be available to discuss a variety of issues including the status of NRC's review of Entergy's power uprate request.

The NRC recently completed its annual assessment of the safety performance of the Vermont Yankee Nuclear Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to Entergy on March 2, 2004. A copy of that letter is enclosed. The NRC's meeting notice, meeting agenda, and assessment letter can be found in the ADAMS meeting package (Accession Number MLO40620017). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at Vermont Yankee. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>

Your schedule permitting, I look forward to meeting you on March 31, 2004. In the interim, please do not hesitate to contact me at (610) 337-5227, if I can be of further assistance to you.

Sincerely,

/RA/

Clifford J. Anderson, Chief
Projects Branch 5
Division of Reactor Projects

Citizens Awareness Network
Box 83
Shelbourne Falls, MA 01370

SUBJECT: VERMONT YANKEE NUCLEAR POWER STATION - ANNUAL ASSESSMENT OF
SAFETY PERFORMANCE

Dear Ms. Katz:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Entergy Nuclear Operations, Inc. in which the NRC will discuss with Entergy our annual assessment of the safety performance of the Vermont Yankee Nuclear Power Station.

The meeting will be held at 7:00 p.m. on March 31, 2004, at the Vernon Elementary School, 381 Governor Hunt Road, Vernon, VT. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with Entergy our assessment of the safety performance at Vermont Yankee and their response to our assessment. The meeting is open to the public for observation. Following the business portion of the meeting, you and other members of the public will have an opportunity to communicate with the NRC regarding Entergy's safety performance at Vermont Yankee and the role of the NRC in ensuring safe plant operations. NRC staff will be available to discuss a variety of issues including the status of NRC's review of Entergy's power uprate request.

The NRC recently completed its annual assessment of the safety performance of the Vermont Yankee Nuclear Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to Entergy on March 2, 2004. A copy of that letter is enclosed. The NRC's meeting notice, meeting agenda, and assessment letter can be found in the ADAMS meeting package (Accession Number ML040620017). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at Vermont Yankee. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>

Your schedule permitting, I look forward to meeting you on March 31, 2004. In the interim, please do not hesitate to contact me at (610) 337-5227, if I can be of further assistance to you.

Sincerely,

/RA/

Clifford J. Anderson, Chief
Projects Branch 5
Division of Reactor Projects
