Subject: Re: Wednesday's Presentation

Chris is going to work on flow charts based on the materials we have put together for the Brach briefing.

I think we can have a good handle on the cask selections/prioritization within the next week and have information for Brach.

Time allocation work will begin after our Section Mtg. today.

Bob, Mahendra, Ken, Dan and Chris,

Can we finalize the selection of casks prior to meeting with Brach next week?

I would like to present a draft program plan with flow charts on all activities.

We also need to address the in-house work and estimate the time you will be dedicating to this effort.

Earl's group is estimating 33% of their time to terrorist events. That seems low to me.

Meet together and plan out the program.

Since some of you are also working on transportation, we need to develop SOWs for PNNL for any models we may need. We need to get all contracts committed ASAP. The SNL contract will be approved next week.

Let's meet on Thursday, 3:30 pm, Room 12B6 to discuss the status.

Thanks,

Jack.
