**Re: NRC Reciprocity for Industrial Radiography on Government Installations
ATOMIC INSPECTION – LICENSE #NM-IR-022-21**

I am sending this letter as a follow-up clarification to our form 241, and as a specific project notification. We have been requested to conduct radiographic inspection of splice welds on structural steel tubing at a new construction project on Kirtland Air Force Base in New Mexico.

Project : Radiography of Square Tubing Welds

Location: Air National Guard Secured Forces Project, Kirtland Air Force Base, NM
Bldg. 1062 at 2251 Airguard Road, KAFB – Albuquerque, NM

On Site Contact: C/O Raymond Sanchez (Gemtech Builders) Phone: (505) 991-6361.

Emergency Contact: Klay L. Roberts – R.S.O. – Atomic Inspection 800-313-2315 or Mobile 505-350-1529.

*Faxed
3/17/04*

Description of work: Radiography will be conducted on Four – 4" steel square tubing welds.

Date of work: Radiography will be conducted on the afternoon of Wednesday, March 17th; after hours when the construction crews have vacated the project area.

Equipment, Isotopes, & Personnel: This project will be conducted using an Ir-192 Isotopes. Equipment for this project will be Iridium Isotopes Model# 924.9 housed in Sentinel/Amersham 660-A exposure devices either serial #A2298 or serial #A1757. Radiographers for this project will be at least two of the radiographers noted in our NM State radioactive materials license. A copy of our newest license revision is also being sent with this letter for our files.

Please contact me should you have any questions or need additional information at (505) 828-2315 or fax to (505) 828-9846. Our 24 hr emergency # is 1-800-313-2315.

Sincerely,

Klay L. Roberts-RSO
