

March 23, 2004

Mayor Robert Reap
Berwick Borough Council
322 E 6th Street
Berwick, PA 18603

SUBJECT: SUSQUEHANNA STEAM ELECTRIC STATION - ANNUAL ASSESSMENT OF SAFETY PERFORMANCE

Dear Mayor Reap:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and PPL Susquehanna, LLC in which the NRC staff will discuss with PPL our annual assessment of the safety performance of the Susquehanna Steam Electric Station.

The meeting will be held at 6:00 p.m. on Tuesday, April 27, 2004, at the Susquehanna Energy Information Center, 634 Salem Boulevard in Berwick, Pennsylvania. At the meeting, we will briefly discuss our Reactor Oversight Process and then discuss with PPL our assessment of their safety performance at Susquehanna and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Susquehanna and the role of the NRC in ensuring safe plant operations.

The NRC recently completed its annual assessment of the safety performance of the Susquehanna Steam Electric Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to PPL Susquehanna, LLC on March 3, 2004. A copy of that letter is enclosed. The NRC's meeting notice, meeting agenda, and assessment letter can be found in the ADAMS meeting package (Accession Number ML040620016). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Susquehanna Steam Electric Station through the NRC Web site. This information may be accessed at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>.

Your schedule permitting, I look forward to meeting you on April 27, 2004. In the interim, please do not hesitate to contact me at 610-337-5209, if I can be of further assistance to you.

Sincerely,

/RA/

Mohamed Shanbaky, Chief
Projects Branch 4
Division of Reactor Projects

Representative Todd Eachus
Luzerne County Representative
100 West Broad Street
Hazleton, PA 18201

SUBJECT: SUSQUEHANNA STEAM ELECTRIC STATION - ANNUAL ASSESSMENT OF SAFETY
PERFORMANCE

Dear Representative Eachus:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and PPL Susquehanna, LLC in which the NRC staff will discuss with PPL our annual assessment of the safety performance of the Susquehanna Steam Electric Station.

The meeting will be held at 6:00 p.m. on Tuesday, April 27, 2004, at the Susquehanna Energy Information Center, 634 Salem Boulevard in Berwick, Pennsylvania. At the meeting, we will briefly discuss our Reactor Oversight Process and then discuss with PPL our assessment of their safety performance at Susquehanna and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Susquehanna and the role of the NRC in ensuring safe plant operations.

The NRC recently completed its annual assessment of the safety performance of the Susquehanna Steam Electric Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to PPL Susquehanna, LLC on March 3, 2004. A copy of that letter is enclosed. SUBJECT: SUSQUEHANNA STEAM ELECTRIC STATION - ANNUAL ASSESSMENT OF SAFETY
PERFORMANCE

Dear Commissioner Soberick:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and PPL Susquehanna, LLC in which the NRC staff will discuss with PPL our annual assessment of the safety performance of the Susquehanna Steam Electric Station.

The meeting will be held at 6:00 p.m. on Tuesday, April 27, 2004, at the Susquehanna Energy Information Center, 634 Salem Boulevard in Berwick, Pennsylvania. At the meeting, we will briefly discuss our Reactor Oversight Process and then discuss with PPL our assessment of their safety performance at Susquehanna and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Susquehanna and the role of the NRC in ensuring safe plant operations.

The NRC recently completed its annual assessment of the safety performance of the Susquehanna Steam Electric Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to PPL Susquehanna, LLC on March 3, 2004. A copy of that letter is enclosed. The NRC's meeting notice, meeting agenda, and assessment letter can be found in the ADAMS meeting package (Accession Number ML040620016). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Susquehanna Steam Electric Station through the NRC Web site. This information may be accessed at:
<http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>.

Your schedule permitting, I look forward to meeting you on April 27, 2004. In the interim, please do not hesitate to contact me at 610-337-5209, if I can be of further assistance to you.

Sincerely,

/RA/

Mohamed Shanbaky, Chief
Projects Branch 4
Division of Reactor Projects
