CHAIRMAN REC'D

04 MAR 19 AM 9:44

I am writing to ask you to please give a voice and action to safely deal with Vermont Yankee Nuclear Plant in Vernon Vermont.

I live within the first 10 mile radius of this power plant

The request of 120% update of a facility built in the 1960's is a daunting threat. Vermont Yankee cannot meet current design and has been grandfathered past safety criteria. A's obsolete design could not be built or licensed today

I strongly urge you to act upon the very real risk posed by the operation of this power plant at Vermont Yankee, Vernon

I request for an independent Safety assessment at Vermont Yankee

Sincerely,

Meryl Wells
