Dear Mr. Miller

I live in Dobbs Ferry, N.Y. which is very close to the Indian Point nuclear power plant. I worry every day about the dangers posed by such a facility. I am writing hoping you will consider having the meeting which officials from Energy Nuclear Outreach will present to the U.S. Nuclear Regulatory Commission the details of their proposed dry cask storage system to be held in Westchester County. It would provide an opportunity for the citizens of Westchester and elected officials to obtain information about the proposals. It should be held in the area where the plant is located.

Thank you for your consideration.  
Sincerely,

John Waters
