SUBJECT: Retraction of Relief Request for Examinations with less than 100% ASME Code Coverage for the Third 10-Year Interval

Following discussions with Nuclear Reactor Regulation (NRR) personnel, the Omaha Public Power District (OPPD) requests the retraction of our Relief Request for Examinations with less than 100% ASME Code Coverage for the Third 10-Year Interval (Reference 4). OPPD intends to re-submit the relief request in the near future to incorporate the revisions suggested by NRR.

No commitments are made to the NRC in this letter. If you have any questions or require additional information, please contact Dr. R. L. Jaworski of my staff at 402-533-6833.
