Dear Ms. Ashley:

Thank you for your participation on the panel of the New Reactors/Advanced Reactors session at the recent 2004 Regulatory Information Conference. Judging by the large number of questions directed toward you, it was clear that your perspectives on issues related to the construction inspection program and information management system were of much interest to the large audience. Your discussion of the construction inspection program and your straightforward answers to questions from the audience contributed greatly to the success of our session.

Thank you again for your time and contributions.

Sincerely,

/RA/
