Mahendra:

I have pasted in the e-mail exchange Mike Hessheimer on the reactor side went through to get a draft of the Pentagon report. I hope this helps.

Jeff

This contains all the pertinent information regarding the Pentagon report. I don't think there should be a problem forwarding it to the NRC. I don't know if anything has changed since the last message.

Mike

Please have your Security Officer fax the ERDC Security Office (601-634-2995 or 3897) your clearance information and advise of your unclassified and classified mailing address. Upon receipt of these items, Dr. Mlakar will have Ms. Grant mail you the document. You must protect the document at the level it is classified at this time until notified that another classification level has been determined.

Thanks,

Linda McGowan

Mike, the classification of the report is under review with various Pentagon agencies. In the meantime we can send it to you as a classified document. We welcome your comments as a researcher and a rescue engineer.

Kathy, this is the document in Dot's safe. Please send a copy to Mike IAW our established security procedures.

Subject: Pentagon Report

Dr. Mlakar:

I've been in contact with Mete Sozen regarding your team's assessment of the Pentagon attack. I understand that your team's report may be classified and I would like to know if it is possible to get a copy of the draft.

I'm a member of the project team at Sandia responsible for assessing the vulnerability of nuclear power plants and related structures to aircraft impact. The information in your report would provide a valuable reference for us. Since the work we are doing is currently classified, we are able to receive a classified copy through official channels if necessary.

On a secondary note, I was also one of the structural engineers with the New Mexico FEMA Urban Search and Rescue Task Force that deployed to the Pentagon, so I have a personal interest in your report, having witnessed the destruction first-hand.

I look forward to hearing from you and hopefully, reading your team's report. Thank you

-Mike
