Subject: Slides and talking points for NEI meeting

If we (SFPO) promise not to disseminate them and keep the guarded appropriately can we get copies of the slides and any talking points you have from the NEI meeting on January 9, 2003.

Also if you have written any papers (even if draft) could we get copies of them to see if they can assist us in performing our Airplane impact studies. I am most interested in any papers that RES has done on Hittability.

Thanks
Bernie White
