Bernie:

I agree with your suggestion. This way, SNL will have more time to concentrate on the large plane activities and the report. Thanks.

I think that the small airplane and the blast scenarios should be a separate report since the results of the large airplane studies will be incorporated into a Commission Paper. Additionally, the results of the studies on the other threats can be incorporated into the paper that has the small plane and blast studies, as well. What are your thoughts on this??
