Subject: proposed outline for WHite paper

Attached are two files. the first is a paper I did, which shows how our VA work fits into the "Grand Scheme" here and what we are planning on doing with our Reports.

the second is a proposed outline for the "End of the Year" White Paper that we will be sending up to the commission in leu of having our analyses done in time to send up the commission paper by the end of CY 02. I would appreciate any comments you have on the outline. I will also be looking for you to help write sections of this white paper so I do not have to write it all myself.

Thanks
Bernie

PS in case you haven't noticed the new time for tomorrow's regular biweekly meeting with Wayne, it will be at 730 instead of 8am.
